## SUMMARY

Results-driven Computer Science graduate from Maseno University specializing in software engineering, with expertise in scalable web and cross-platform applications and AI solutions. Proficient in the MERN stack (MongoDB, Express.js, React, Node.js), JavaScript, and Python for dynamic user interfaces. Experienced in designing RESTful APIs, conducting unit testing, and applying agile methodologies to enhance project workflows. Completed freelance projects and an ICT internship, collaborating with cross-functional teams to deliver innovative software solutions. Recognized for strong analytical and problem-solving skills, ready to contribute to forward-thinking software development teams.

## EXPERIENCE

### Fullstack Developer

*2022 – PRESENT*

Freelance Web Developer

- Developed and delivered custom web applications for clients using modern frameworks and tools.
- Built responsive applications with the MERN stack and Tailwind CSS, consistently meeting client specifications.
- Collaborated with clients to gather requirements, implement features, and ensure timely project delivery.

### ICT Intern

*Jan 2024 – Apr 2024*

Judiciary Law Courts

- Supported IT operations and system maintenance in a professional environment.
- Assisted in software installations, application deployment, and system troubleshooting.
- Worked with IT teams to resolve technical issues, enhancing system reliability and user satisfaction.

## EDUCATION

### Bachelor of Science in Computer Science

*SEP 2021-NOV 2025*

Maseno University

## PROJECTS

### Actirova

React, Tailwind CSS, LangChain, Gemini API, OpenAI GPT

- Actirova AI Tutor is an AI-driven educational platform that personalizes learning by analyzing individual student needs and learning styles. It delivers customized instructional materials, interactive lessons, and real-time feedback, enhancing engagement and improving educational outcomes.

## **Edubora Management System**

MERN Stack

- Edubora Management System is a comprehensive educational platform that optimizes administrative tasks through automated student enrollment, course scheduling, grade tracking, and communication tools. It enhances operational efficiency and supports data-driven decision-making with real-time analytics, all within a secure, user-friendly interface.

## **Medcore Hospital System**

MERN Stack, TypeScript, Tailwind CSS

- Developed a scalable hospital management system enhancing patient care, appointment scheduling, and medical record management using modern web technologies.

## **Personal Portfolio Website**

React, Tailwind CSS, Framer Motion, TypeScript, Vite

- Personal portfolio website featuring a curated collection of design projects and coding samples. Showcases my expertise in web development, graphic design, and project management through detailed project descriptions, client testimonials, and industry insights.

---

## **SKILLS**

Java • Python • JavaScript • TypeScript • PHP • React • Next.js • Express.js • Laravel • Django • Git • GitHub • VS Code • MySQL • MongoDB • PostgreSQL • RESTful APIs • Material UI • Tailwind CSS • Agile Development • Unit Testing • Google Cloud • AWS (Foundational)
